Question 1

1/1 point (graded)

In randomized experiments, we randomize _____.

- a. Individual characteristics
- b. Outcomes
- c. Strata
- d. Whether the intervention is received ✔

Explanation

It is randomized whether or not someone/something receives an intervention.

Functions of Random Variable

- Module 5: Moments of a Random Variable, Applications to Auctions, & Intro to Regression
- Module 6: Special Distributions, the Sample Mean, the Central Limit Theorem, and Estimation
- Module 7: Assessing and Deriving Estimators - Confidence Intervals, and Hypothesis Testing
- Module 8: Causality, Analyzing Randomized Experiments, & Nonparametric Regression
- Module 9: Single and Multivariate Linear

Submit You have used 1 of 2 attempts

✔ Correct (1/1 point)
