Practice Proctored Exam

🔖 Bookmark this page

This ungraded practice exam provides an opportunity for learners to experience the proctoring software setup process and make sure their computers are compatible with the software and familiarize themselves with the steps to perform the identity and environment checks.

The actual proctored final exam will open in the last week of the course, and will be due on the last day of the course.

Please note: In an actual proctored exam, as soon as learners agree to take the exam with online proctoring and start the process of installing the proctoring software, they must continue through to taking the exam as soon as that process is completed.

Before proceeding to the proctored exam, please read the **proctored exam guidelines**.
