## QUICK QUESTION 1 (1/1 point)

eHarmony has a distinguishing feature, that makes it stand out from other online dating websites? What is this?

- ☐ eHarmony was the first online dating site.
- ☐ eHarmony asks users for personal information.
- ☐ eHarmony charges a fee to users.
- ☒ eHarmony only suggests matches to users, instead of allowing users to browse. ✓

### EXPLANATION

eHarmony was not the first online dating site, and while they ask users for personal information and charge a fee, other online dating sites do that as well. What distinguishes eHarmony is that they only suggest matches to users, instead of allowing users to browse other users' profiles.
