

QUESTION 2 (1/1 point)

You have 2 years of past data from a hospital, including fields such as the day of the week, staffing level, the symptoms of the patient, and wait time.

You must use this data to create a machine learning model that can predict emergency room wait times based on the other information.

Which of the following terms is used to describe the field containing the wait time?

☐ Feature☐ Class☐ Vector☒ Label ✓

EXPLANATION

The value you are training a model to predict is called a Label.

You have used 1 of 2 submissions
