### 4.2.3 Problem Set: Code download and submission

 Bookmark this page

Problem Sets due Aug 24, 2023 05:00 IST

Use the link to the Vocareum website provided below, and follow these instructions for downloading and submission (uploading).

Downloading provided files:

- Click on the startercode directory on the left side of the Vocareum page.
- Click on the download button (the icon near the top-left with a down arrow).
- A window should pop-up which you can then click on "Download zipped source" to download a zip file with all of the provided source.
- The downloaded zip file should contain:
  - HVACIVP.py
  - IVPlib\_pset2.py
  - LinSysIVP.py
  - mylinsolver.py
  - mynonlinsolver.py
  - slimmons.csv
  - solve\_slimmons.py
  - solve\_robertson.py

Uploading your solutions:

- Click on the work directory of your Vocareum workspace for this assignment.
- Then click on the Upload button.
- A directory window (for your computer) will appear. Navigate in that window to where you have your solution files stored. Select the following files for upload:
  - IVPlib\_pset2.py
  - mylinsolver.py
