Quiz: Training Parameters in PyTorch the Hard Way

Instructions for Graded Review Questions

How much time do I have to complete these questions?

Unlimited. You can take as long you want to answer these questions.

Can I go back to the videos to check something, then come back to these Review Questions?

Yes, absolutely! These questions are for you to review what you've learned so far. Take your time.

Do these Review Questions count towards my final grade?

Yes, all of the review questions, combined together, are worth 50% of your total mark.

How many chances do I get to answer these questions?

It depends:

- For True/False questions, you only get one (1) chance.
- For any other question (that is not True/False), you get two (2) chances.

How can I check my overall course grade?

You can check your grades by clicking on "Progress" in the top menu.

Multiple Choice

1/1 point (graded)

Your loss is a function of w . What method will calculate or accumulate gradients of your loss?

`w.grad`

`loss.backward()`

`loss.grad`

Submit

You have used 1 of 2 attempts

✓ Correct (1/1 point)

Multiple Choice

1/1 point (graded)

Consider the derivative of the loss with respect to w , where l represents the value of the loss. How do you obtain the equivalent value in PyTorch?

$$\frac{dl(w = -10)}{dw}$$

☐ `loss`☐ `loss.backward()`☐ `loss.grad`☒ `w.grad`[Submit](#)

You have used 1 of 2 attempts

✓ Correct (1/1 point)
