Module 3: Gathering and Collecting Data, Ethics, and Kernel Density Estimates &gt; Summarizing and Describing Data &gt; Pareto Distribution - Quiz

## Pareto Distribution - Quiz

[Bookmark this page](#)

### Question 1

1 point possible (graded)

Consider the formula for the top  $q^{\text{th}}$  percentile's share with a Pareto distribution and assume that  $\lambda = 1.5$ . Then the top 1% income share equals \_\_\_ percent.

*Enter only the value, do not add a % sign. Round your answer to the nearest full percentage (e.g. if your answer is 45.6 round to 46 and if your answer is 72.3 round to 72).*

Answer: 22

### Explanation

22. This solution comes straight from the formula given in class and provided in the lecture notes:  $(1/100)^{1/3} = 0.21544$
