 [Matlab vs. Python](#)2

[Hello, everyone. I would like to use Python instead of Matlab. So, my question is whether our exams include programming questions related to...](#)

 [Too late for this.](#)1

[Too late for this.](#)

We use MATLAB as a tool because it was invented to support learning about matrix computations. You will find that the syntax of the language used by MATLAB very closely resembles the mathematical expressions in linear algebra.
