

6.3.5 Unit 6 Content and Practice Problem Help & Discussion Forum

There will be two help forums for each week. One for the course material and practice problems, and one for homework problems. The content and homework forum will appear after the homework problems.

UNIT 6 CONTENT AND PRACTICE PROBLEM HELP & DISCUSSION FORUM

We encourage class participants to discuss the material and share their solutions and ideas for practice problems. The staff will be proactive in removing posts and replies in the discussion forums that have stepped over the line. Post practice forum questions and discussion to the forum below. Review the [course honor code and discussion policies before posting](#).

Please **REPLY** to the starter post or another current post, rather than starting a new post. If you are posting from the Discussion tab, please be sure to select the correct post category. This will help the course team and your peers respond to your posts more quickly.

For Practice Problems, **REPLY** to the thread that matches the problem number.
