## Computing Statistics

(1/1 point)

Ensure that you completed the lab by using the dataset and code specified in the lab document. If you did not use the steps prescribed in the lab document, you may obtain different results from those expected below.

What is the median of the horsepower column (to the nearest whole number)?

Answer: 95

### EXPLANATION

Follow the lab instructions precisely, using the dataset and code provided to calculate the median of the horsepower column.

(1/1 point)

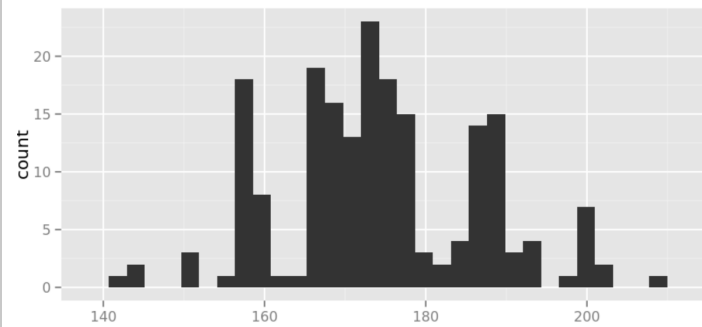

Which of the following visualizations shows the summary statistics for the horsepower column?

Visualization A

Visualization B

Visualization C

Visualization D

☐ Visualization A☒ Visualization B ✓☐ Visualization C☐ Visualization D
