❓ Unable to add Zip File to MATLAB- Not sure where it went wrong, any tips!		6

Because you will be using MATLAB Online, you need to **ALSO take** the same zip file you downloaded onto your computer in Unit 0.2.7 and upload this to MATLAB Online.
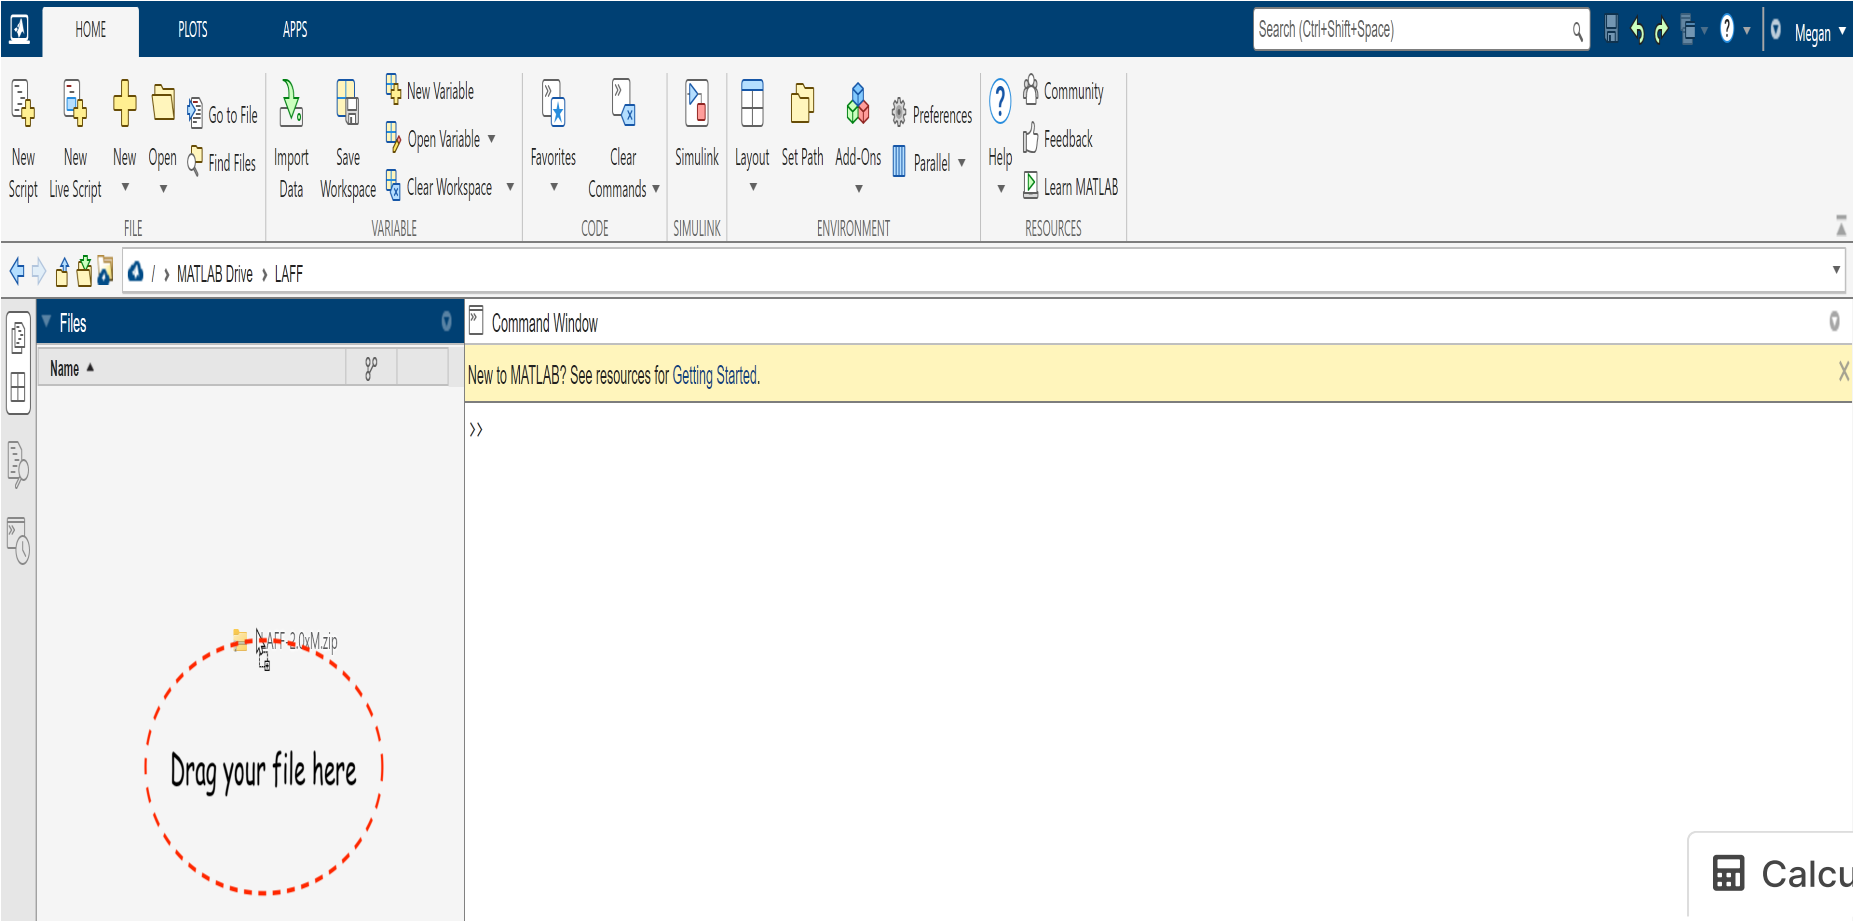

After logging into MATLAB Online, upload the zipped file **LAFF-2.0xM.zip** using the "Upload" button under the home tab.

As of Spring 2023, the way one uploads to MATLAB Online has changed. Instead of clicking the "upload" button, you should now drag the to be downloaded course files into the files panel in MATLAB Online

In the Command Window, type (or copy and paste)

```
unzip LAFF-2.0xM
```

We walk you through this process in the following video **(but now you should drag the file to upload).**
