Terms of Service and Honor Code

Terms of Service and Honor Code

1/1 point (ungraded)

Note: **This part is prerequisite for Graded Assignments. You need to get the one point that is assigned to this part to be able to unlock the graded assignments and submit your answers. You may need to refresh the page after you got the point to unlock the graded assignments!**

As an SCx/edX learner, I have agreed to the following Terms of Service (Please read them carefully).

By selecting them, I understand that the SCx team reserves the right to remove credit, not award a certificate, ban from any or all SCx courses as well as notify edX for other actions if any honor code violation is identified. I agree to the following terms and the other edX Terms of Service.

☑ **No Account sharing:** I will not share my username and password with anyone. I will contact the SCx help desk account (sc0xhelp@mit.edu) if I believe my account has been compromised.

☑ **Only one edX account for SCx courses:** I will maintain only one user account and not let anyone else use my username and/or password. Having more than one user account registered for a course (regardless as to whether it is used or not) will constitute cheating.

☑ **Do my own work:** I will complete all graded assignments and exam questions by myself, using only my own work. I will not submit the work of any other person or have anyone else submit work under my name.

☑ **No quiz sharing:** I will not share SCx graded assignments, midterm or final exam questions or answers on the discussion forum or any other website, via email, posting, photocopying or any other means.

☑ **No cheating:** I will not engage in any activities that would dishonestly improve my results, or improve or hurt the results of other learners.

☑ **My actions are logged:** I understand that SCx Course Team maintains and actively monitors account logs of all of my activity on SCx courses.
