

[Course](#) > [2. Of Colors & Dimensions](#) > [2.2. Seeing Colours](#) > 2.2.1. Poll : Result

## 2.2.1. Poll : Result

Go to [www.menti.com](https://www.menti.com) and use the code **37 83 42**  
<

# How many photo-receptors do humans have ?

By the way, more receptors doesn't mean more efficient to discriminate colors.  
You can have a look to this [Nature News](#) and the original article in [Science](#).
