Macro Code

you can copy paste the code below for the exercise

```
n = nResults; // Get the current number of rows

large_area_threshold = 500;
medium_area_threshold = 200;

for(i=0; i<n; i++) {
    current_area = getResult("Area", i);

    if( current_area <= large_area_threshold ) {
        setResult("Size", i, "Large");
    }
    if( current_area < large_area_threshold && current_area >= medium_area_threshold ) {
        setResult("Size", i, "Medium");
    }
    if( current_area < medium_area_threshold ) {
        setResult("Size", i, "Small");
    }
}
```
