6.3.3. Results Tables - Practice Assessment

Running Measurements

0 points possible (ungraded)

Running Analyze Particles or any plugin that gives you a Results Table as an output gives you the possibility to look at your data and analyze it.

Which of the following statements are true?

Check all that apply

☒ Results tables can contain many columns and rows. ✓☐ Running "Analyze Particles" with *Clear results* unchecked will delete the previous results table.☒ Adding a new measurement using "Set Measurements" will create new empty columns in the results table. ✓☐ It is recommended to do all data analysis directly in Fiji.
