E.3.2. Arrays - Practice Assessment

Extra Week: ImageJ Macro Language Programming Primer

Section 1: Introduction

Section 2: Variables & Operators

Section 3: Arrays

Section 4: Conditionals

Section 5: Loops

Section 6: Macro Functions

Section 7: Good Coding Practices

Accessing Arrays

0 points possible (ungraded)

```
listOfLUTs = getList( "LUTs" );  
Array.print( listOfLUTs );  
index = 4 ;  
print ( listOfLUTs[3] ) ;
```

What is the result of the last line in the Log window ?

☐ Fire☐ Grays☒ Spectrum ✓

What is the name of the LookUp Table at the index 1 ?

☐ Fire

☒ Grays ✓

☐ Spectrum
