

Paths

Michel Bierlaire

Practice quiz

Consider the following directed graph.

1. Give a path from v_1 to v_2 .
2. Is the path a forward path? If so, mention it.
3. If there is a forward path from v_1 to v_2 , mention it.
4. Enumerate the simple paths from v_3 to v_1 . Identify those that are forward paths.
5. Give an example of a path from v_3 to v_1 which is not simple.
6. Give an example of a simple cycle.
7. Give an example of a cycle which is not simple.
