

We are trying something new: **the ALAFF Summer 2022 Cohort.**

We are hoping that people will have a better learning experience when they feel part of a cohort and (roughly) study the same ALAFF "Week" during the same actual week.

How to join

Send a message with your edX ID or email you use for edX to Robert (rvdg@cs.utexas.edu) and we will add you to the cohort. (I am having to add these by hand, so please send me another email if it seems like I overlooked your first message.)

Log of e-mail messages

For those who joined late, here is a history of e-mail messages sent since the cohort started:

- [May 22, 2022: ALAFF Pretest](#)
- [May 23, 2022](#)

What does it cost?

The cohort is equally open to auditors (free) and those who want a Verified Certificate.

Office hours

As an additional carrot, we will hold periodic "office hours" on Zoom

What if I fall behind?

Life happens. Some may get ahead. Others may fall behind. The advantage of taking a MOOC is that in the end you control what your learning goals are and what your schedule is.

What if I don't want to be part of the cohort?

The course will continue to be self paced, so it is up to you whether to join or not.
