Verified Certificate

THE UNIVERSITY of TEXAS SYSTEM

This is to certify that

Sandipan Dey

successfully completed and received a passing grade in

UT.ALA:Advanced Linear Algebra: Foundations to Frontiers

a course of study offered by UTAustinX, an online learning initiative of University of Texas System.

**Maurilio Pugliesi**
Professor
UniversityX

**Justine Doe, Ph.D.**
Professor
UniversityX

the next natural thing to do is to say Hmm but what about C equals A times B.

Now you might think, "Well, alright. We can think of this as just a whole bunch

of dot products, one to update each element in C. So maybe we can use this

result or we can think of matrix vector multiply as partitioning C by columns

and B by columns and orchestrating it as a bunch of matrix vector multiplication. So

Reading assignment

1/1 point (graded)

 Read Unit 6.3.5 of the notes. [\[LINK\]](#)

What hopefully you noticed is that, you know, you end up with a whole bunch of error results. You end up with a whole bunch of changes that -- needs to be-- that

need to be thrown at something and there
